PRESIDENT'S MESSAGE — JULY 2021

Welcome Summer!

We know it's officially here now that every day in Corona is about 100 degrees! Keep those ESC's from overheating! The heat I don't mind, but I can do without the wind; it really screws up my landings!

We had a great turnout at the last meeting and a lot of things were discussed. It doesn't appear CCF will be putting on any BIG events this year; however, there is some discussion of having 1 or 2 small less formal events.

Most likely we'll have some sort of **Christmas Party** this year, so stay tuned. I hope everyone's having a great summer!

On final approach - Rick

Circle City Flyers is a group of people who love RC flying.

Normal folks, who find the utmost joy in creating and flying wonderful machines that inspire awe and put just a bit of color in the sky.

CCF is a non-profit, AMA affiliated flying club.

The CCF has one of the best flying facilities in Southern California. We are located just south of Corona, California, just a few minutes from the 15 Freeway.

The club is well established and member's interests range from helicopters to 3D Planes. We fly gas, turbines, electric, glow, scale, profiles and combat wings. We have RC pilots who have flown for 40+ years, and beginners who are just learning the joys of flight. Got a question? Just learning? Curious? Come on down!

You can find folks flying most days, with the weekend mornings being very popular. Mornings are calm with winds generally increasing throughout the day.
