Circle City Flyers is a group of people who love RC flying. Normal folks, who find the utmost joy in creating and flying wonderful machines that inspire, awe and put just a bit of color in the sky.

CCF is a non-profit, AMA affiliated flying club and we have one of the best flying facilities in Southern California. We are located just south of Corona, California, just a few minutes from the 15 Freeway.

The club is well established (AMA Charter est. 1990) and member's interests encompass the entirety of aviation. We fly gas, electric, glow, & electrics; Scale, 3D, and FPV; Profiles, combat wings, multi-rotors, helicopters and even a couple turbines.

We have RC pilots who have flown for 40+ years, and beginners who are just learning the joys of flight.

Got a question? Just learning? Curious? Come on down!

You can find folks flying most days, with the weekend mornings being the most popular. Mornings are calm with winds generally increasing throughout the day.
