Hello Pilots,

Summer is here! Please remember to stay hydrated when visiting the field. It's been a hot summer already and dehydration can cause all kinds of problems. The biggest issues with dehydration are being fatigued, feeling dizzy and poor decision making. You can be dehydrated, even if you "feel" fine. In our hobby, if you are not sharp and alert bad things can happen especially when piloting our planes through the sky. It's a safety risk to your plane, your body and the members around you if you aren't thinking clearly. The safety of all our members is the top priority of CCF. Please remember this when at the field. Please also watch for rattle snakes. The valley is their home, and the human body doesn't react well to rattle snake venom. Please watch your step.

Deleo Field is clear! - We're not entirely sure who did CCF such a huge favor; however, rumor has it that someone from the Deleo's own Corona Clay used one of their big back hoes to clear all the dead shrubbery around the field. Wow! Thank you SO MUCH!!! We are forever grateful as those Temescal Valley weeds are relentless. Much appreciated!!!

Jet's Over Temescal Valley 2024 is almost here!
Saturday, September 21st we punch holes in the sky!

Don't miss it! Get your extra stuff together, the CCF bi-annual Swap Meet is scheduled for Saturday, October 5th. There was a HUGE turnout at the last one with people coming from far and wide for great deals from a packed house full of sellers.

Reminder - Circle City Flyers at Deleo Field has a NEW CLUB RULE
NO FLYING BEFORE 8:30am and NO FLYING AFTER DARK.

CCF BOARD MEETINGS ARE HELD AT DELEO FIELD on the 3rd Saturday of the month at 11am. The next meeting will be Saturday, August 17th 2024. Stay well and see you at the field!

"On final approach, - Rick"

Circle City Flyers is a group of people who love RC flying. Normal folks, who find the utmost joy in creating and flying wonderful machines that inspire, awe and put just a bit of color in the sky.

CCF is a non-profit, AMA affiliated flying club and we have one of the best flying facilities in Southern California. We are located just south of Corona, California, just a few minutes from the 15 Freeway.

The club is well established (AMA Charter est. 1990) and member's interests encompass the entirety of aviation. We fly gas, electric, glow, & electrics; Scale, 3D, and FPV; Profiles, combat wings, multi-rotors, helicopters and even a couple turbines.

We have RC pilots who have flown for 40+ years, and beginners who are just learning the joys of flight.

Got a question? Just learning? Curious? Come on down!

You can find folks flying most days, with the weekend mornings being the most popular. Mornings are calm with winds generally increasing throughout the day.
