*Hello Pilots - A recap of the last few months,*

*Jet's Over Temescal Valley 2024 was epic!!! On Sept. 21st we punched holes in the sky with more jets than I can count! See event pics further down in the newsletter. Great fun was had by all in attendance and everyone said they can't wait until next year. Awesome jets, cool people, great food and fun raffle, what else can you ask for. Thanks again to Eric and everyone that helped make this event a success. If you couldn't attend this year, don't miss JOTV next year!*

*The CCF bi-annual Swap Meet took place on October 5th. There was a HUGE turnout again with people coming from far and wide for great deals from a packed house full of sellers. The CCF Swap Meet is now a can't miss event for all things RC. Good times and great deals are a winning combination!*

*The CCF end-of-year Christmas Party will be on Saturday, December 7th. We will be hosting the party at our field again this year. We'll get the yummy Tom's Farms pizza and have our usual large raffle to give back to the members. Please mark your calendars so you and your +1 can make it!*

**Reminder - Circle City Flyers at Deleo Field has a NEW CLUB RULE  
NO FLYING BEFORE 8:30am and NO FLYING AFTER DARK.**

Circle City Flyers is a group of people who love RC flying. Normal folks, who find the utmost joy in creating and flying wonderful machines that inspire, awe and put just a bit of color in the sky.

CCF is a non-profit, AMA affiliated flying club and we have one of the best flying facilities in Southern California. We are located just south of Corona, California, just a few minutes from the 15 Freeway.

The club is well established (AMA Charter est. 1990) and member's interests encompass the entirety of aviation. We fly gas, electric, glow, & electrics; Scale, 3D, and FPV; Profiles, combat wings, multi-rotors, helicopters and even a couple turbines.

We have RC pilots who have flown for 40+ years, and beginners who are just learning the joys of flight.

Got a question? Just learning? Curious? Come on down!

You can find folks flying most days, with the weekend mornings being the most popular. Mornings are calm with winds generally increasing throughout the day.
